

# MPTS360 MULTI-PURPOSE TRAINING SYSTEM

"Medivet's MPTS360 is a superior mask for Nebulising horses with Autologous Conditioned Serum and other Products/Therapies because it combines one-way valves and a tight seal on the nose which eliminates wastage of Products/Medications"

– Dr David Evans PhD BVSc

- 500% More Effective Than Any Other Nebuliser Available Today
- Breakthrough Dual-Nebulisation Technology
- Tested at Sydney University
- Patented Technology
- Oxygen Therapy
- Altitude Training
- Drives Performance
- Faster Recovery
- Stress Free Travel

The MPTS360 is the world's leading Medical Delivery and Training Technology for horses featuring state-of-the-art dual Nebulisation technology through Ultrasonic Nebulisation and Jet Nebulisation.

Studies with Australia's leading University confirmed the MPTS360 possesses Nebuliser technology that is 500% more effective than any other Nebuliser available in the world today in the breaking down of particles into the ideal particle distribution range when delivering products/medications through a Nebuliser.
